

Town of Halton Hills Notice of Study Commencement Armstrong Avenue Reconstruction Development of Design Alternatives

The Study

The Town of Halton Hills has initiated a study to determine the best design alternative to address the rehabilitation of Armstrong Avenue from Mountainview Road North to Guelph Street in the Town of Halton Hills. The purpose of this study is to develop a consistent cross section for Armstrong Avenue to accommodate site traffic and access requirements as well as provide for pedestrian and cycling amenities prior to proceeding with detailed design. The site location is identified below.

The Process

This study is being carried out in accordance with the requirements of a Schedule "A+" undertaking as outlined in the Municipal Engineers Association *Municipal Class Environmental Assessment document* (2000, as amended in 2007). A key component of the study will be consultation with interested stakeholders (public and agency). A Public Information Centre (PIC) will be scheduled during the course of the project and appropriate notice will be given. The purpose of the PIC will be to review the problem statement, the planning alternatives and the results of the respective technical studies being undertaken.

Comments Invited

Public input and comments are invited for incorporation into the planning and design of this project. Upon completion of the study, an Environmental Study File will be prepared for public review and comment for a period of 30 days. Subject to comments received and the receipt of necessary approvals, the Town intends to proceed with the detail design and construction of this project. To provide comment or to request additional information concerning this project, please contact either of the following Project Team members:
