Overview

The Town of Halton Hills is a growing, nature-rich community that is proud of its small-town feel and urban rural mix where all people feel welcomed, safe, and connected. The Town's mission is to efficiently provide services that foster a higher quality of life for residents, making Halton Hills a desirable place to live, work, and invest. At the Town of Halton Hills, we value:

- **Integrity and honesty** - We are truthful, make fact-based decisions, and act in the best interests of the Town.
- **Transparent and accessible** - We welcome communication and information sharing in an open and receptive manner.
- **Effective stewardship** - We build on our collective strengths to achieve the best possible outcomes as stewards of our community, corporate assets, resources, and the natural environment.
- **Connected** - We stay informed and engaged with our community.
- **Respectful and caring** - We demonstrate appreciation and support for all through our inclusive and collaborative approach.

Strategic Priorities and Objectives

Thriving Economy

Objectives:

- Expedite development of employment lands.
- Attract and retain businesses that align with town's priorities.
- Promote redevelopment and growth of commercial areas.
- Support agricultural business viability.
- Advance residential intensification, where planned.

Natural Areas & Heritage

Objectives:

- Increase public access to parks, natural areas and green spaces.
- Protect and enhance biodiversity, the river valley watershed, and Niagara Escarpment landforms.
- Preserve built and natural heritage features of our communities.

Infrastructure and Asset Management

Objectives:

- Ensure that the town has resilient infrastructure to reduce impacts on the community.
- Ensure that Town assets, infrastructure and services keep pace with population and housing growth.
- Improve road safety.
- Maintain and renew green infrastructure.

Safe and Welcoming Communities

Objectives:

- Ensure that facilities and programs meet the evolving needs of the community.
- Support community-driven and partnered recreation and sport programming.
- Ensure emergency services align with town growth.
- Enhance outreach and engagement within our communities.

Performance Measurement and Reporting

Performance measurement enables the Town to monitor and communicate about implementation, outcomes and impact of the actions taken to carry out the strategic plan. A new framework has been put in place to ensure regular ongoing management, monitoring and progress reporting in implementing the Strategic Plan.

The performance management framework's main elements include the formation of two special committees of Council:

- Growth and Infrastructure Committee
- Healthy Environment and Community Committee

The Special Committees meet quarterly and receive reporting which provides progress updates on identified initiatives from strategic priority champions. In addition, budgets and business plans remain the mechanism that define what gets worked on, resourced, funded and so on. That has not changed or stopped. The committees are designed to put a proactive transparent spotlight on what work is underway or planned to support the achievement of Council's Strategic Plan.

Communicating results

Effective communication of progress supports transparency and accountability. While evidence-based decision making may call for detailed, technical information, community reporting calls for simplified, accessible information.

The following information represents a community dashboard; an opportunity for the community to see what initiatives have been identified in support of Council's Strategic Plan along with how things are progressing. The following legend has been used to categorize progress and call out areas that may need attention or decision-making.

Icon Legend

- ✓ **Ongoing or Complete:** Initiative is underway or finished, no issues.
- \$ **Funding:** Additional funding is required.
- 👤 **Staffing:** Additional staffing or reprioritization required.
- 📅 **Timing:** Milestones may not complete on time.
- 🚫 **Issues:** Initiative is not currently proceeding.
