**BUILDING SERVICES**

**PART C BUILDING CLASSIFICATION (SERVICEINDEX (SI))**

**Miscellaneous**

**REFUNDS - UPON WRITTEN REQUEST**

Calculated amounts under \$100.00	No Refunds						E
Where permit issued & any construction or demolition commenced.	No Refund						E
Where permit issued but no inspection done	25% of Fee Refunded						E
Where permit not issued, & administrative functions carried out.	75% of Fee Refunded						E
Where permit not issued, & technical plans review carried out.	50% of Fee Refunded						E

**NOTES:**

"Construction Value", means the value of the proposed construction as determined by the Chief Building Official, whose determination of the value shall be final. Where there is no prescribed construction value the CBO will determine building permit fee based on required time.

Application for a Conditional Permit shall be only accepted in conjunction with a complete full permit submission. All relevant fees, securities and signed Conditional Permit Agreement shall be also provided.

Each "Industrial Occupancy" rate includes incidental finished office space to a maximum of 10% of the total floor area.

Floor area shall be measured to the outer face of exterior walls and to the centerline of party walls or demising walls. Except for interconnected floor spaces, no deductions shall be made for openings within the floor area (e.g. stairs and stair openings, ducts, elevators, escalators). Floor areas shall include all habitable areas, including mezzanines, lofts, finished attics, mechanical penthouses or floors and enclosed or covered balconies.

For "All other multiple unit residential buildings" the fee does not include charges for common rooms and parking garages, which will be calculated based on the corresponding fees.

For detached, semi-detached and townhouse dwellings, the floor area of the porches, decks and balconies not exceeding 10 m2, and unfinished basements, shall not be included in the area calculations.

In addition to the fees calculated in accordance with Parts A, B, or C, each application for consideration of an Alternative Solution shall be accompanied by a non-refundable fee of \$500. This fee includes 5 hours of review time. For each additional hour of review time, a \$100 fee shall be paid.

In the case of interior alterations or renovations, the area of proposed work is the actual space receiving the work (i.e. tenant space).

Minimum Building Permit fee includes plans review and 3 inspections. Any additional (required) inspections will be added to the minimum Building Permit fee.

The applicable "shell" rate shall be applied to the floor areas of a speculative structure, where the only finished floor areas are to be the common areas (e.g. lobby, corridors, washrooms).

The applicable rates for new buildings do not include the "Special Systems" such as sprinkler or standpipe systems, kitchen exhaust systems, fire alarm systems, water supply for fire fighting & site servicing for other than small residential buildings. (Corresponding fee shall be added accordingly).

The occupancy categories in this Section correspond with the major occupancy classification in the Building Code. For mixed occupancy floor area, the Service Index for each of the applicable occupancy categories may be used, except where an occupancy category is less than 10% of the floor area.

Upon request, the Chief Building Official may authorize a fast track, after hours service at a rate of 1.5 times the permit fee prescribed herein.

Where an inspector determines that work for which an inspection has been requested is not sufficiently complete to allow proper inspection, or an infraction which was previously identified has not been remedied, an additional fee will have to be paid prior to subsequent inspection being scheduled.
